Immerse yourself in the Benefits

A pool enhances your life and turns your backyard into an everyday vacation spot.

These are not our words, but the claims of current pool owners. If you're thinking of buying a pool, listen to those who have already: the benefits of pool ownership are not just perceived notions, but facts, including:*

family, fun, fitness...

More Family Time – Whether it's playtime with your children or downtime with your spouse, create connections and memories that last a lifetime.

A Place To Refresh & Relax - For a hot day at home or a hard day at work, a pool is the perfect way to let life's stresses wash away.

An Entertainment Center Like No Other - A swimming pool is a social magnet and the optimum way to entertain with friends and relatives.

A Healthier Outlook - Swimming is a great exercise for all fitness levels. You can benefit from swimming whether you're young or old, a dog paddler or competitive athlete.***Just 2.5 hours of swimming a week will help you lose weight, tone up, relieve aches and pains, sleep better and have fun in the process.

....and finances!

A Legacy Edition Pool is one home improvement that will pay for itself in multiple ways, from increasing your home's value to reducing family summer vacation expenses.**

Plus, the timing of installing a pool couldn't be better, given the current building construction economy. Having a pool installed today is much more affordable than years ago. Ask your Certified Legacy Builder for more details, and for the many attractive financing options currently available.
