Quality and Innovation

For over 60 years, we've been perfecting the art of pool production. You and your family deserve nothing less. Installing an inground pool is a very big investment, and we are committed to giving you the best materials, the finest craftsmanship, and the most beautiful designs you'll ever find.

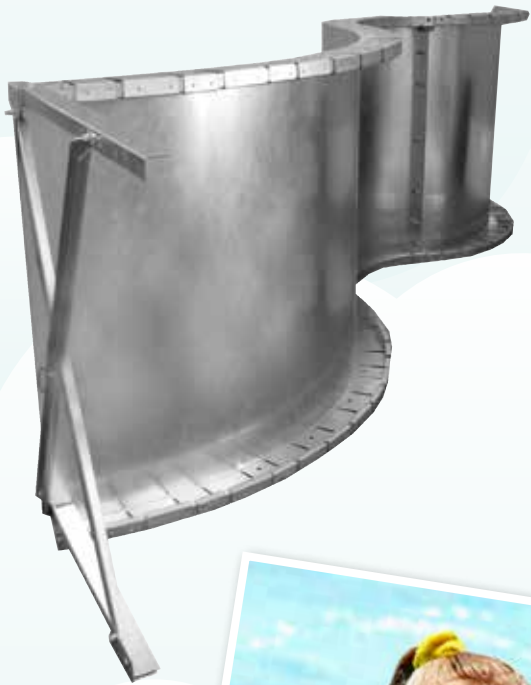

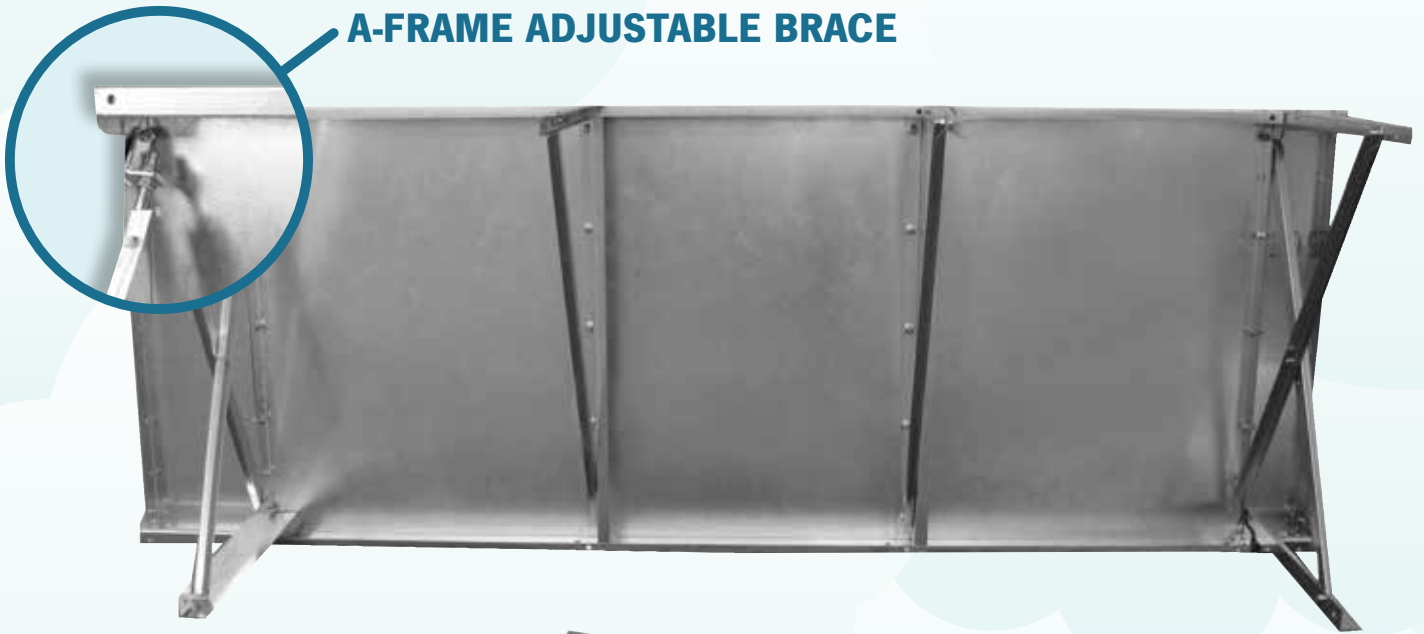

Platinum Pools® are built with panels constructed of the highest quality (14 gauge G-235 zinc-coated) galvanized steel available. The strength of steel remains unrivaled whether building pools, bridges or skyscrapers! That's why these pools are constructed using heavy gauge steel covered with twice as much protective zinc coating as commercial grades. Our panels are built to withstand extreme conditions and are fortified with pioneering Armor Guard™, an additional layer of protection designed to prevent corrosion and extend the life of your panels.

The 5" top & bottom flanges feature a unique "double bend" which further strengthens the steel panel. In addition, the full box beam wall stiffeners and side flanges are firmly secured by an unparalleled bolt inter-loc system. Reinforced by a heavy gauge adjustable A-frame brace, these pools are built to last a lifetime — guaranteed!

Quality and Craftsmanship

The quality and craftsmanship of a Platinum Pool® isn't all hidden beneath the surface. We offer elegant, exclusive features you can see and touch that provide aesthetic appeal to every pool we manufacture:

- Interior Pool Finishes™ - Soft to the touch, our interior pool finishes come in a variety of alluring patterns and are simple to replace, allowing you to renew your pool's interior to change with you over time. The wide selection of patterns allows you to decorate your pool in style, with uncompromising quality and durability.
- Made from the finest virgin vinyl, these super thick liners reign far superior to the industry standard. A specially treated liner resists ultraviolet rays and discourages bacteria and fungus growth. Further protection with a clear acrylic topcoat results in a uniquely beautiful liner that's long lasting and easy to maintain.
- Bring the interior finish of your Platinum Pool® onto your stairs, benches and coves with our Steel and Nexus™ Steel systems. Designed with functionality and visual appeal in mind, these options will truly elevate your swimming experience and create a uniform elegance to your pool. Choose from our many standard models or design something of your own, in any shape or size!
- Our progressive coping locks your concrete deck against the pool walls with a contoured shape, fewer seams and a low profile edge.
